Interests

My main interest is in Web Development. During my University course and in my spare time I have developed a good understanding in a variety of web programming languages as is stated in my Skills section.

Another one of my strong interests is music and I taught myself to play the guitar over a year ago with help from lessons on the internet, as a part time hobby. I also have interest in sports which includes watching football, rugby and American football although I don't actually participate in any of these sports myself.

Dear Mr Smith

Re. Web Developer Vacancy

My name is Jamie Finn and I am looking to pursue a full time career as a Web Developer.

I would like to apply for your above vacancy which I saw advertised on the internet.

I am very interested in a career as a web developer as I feel very passionate about having this type of occupation and have obtained numerous skills with various types of coding.

My skills are in coding and these include HTML, CSS, MYSQL, PHP and Java Script. These skills have been obtained by carrying out a university degree at Manchester Metropolitan University and also using the internet in my own time.

I would like to join your company to gain more experience of creating websites for clients or companies so as to improve my skills and confidence even further.

Attached is a copy of my Skills CV.

I would be available for an interview anytime and I look forward to hearing from you in due course.

Yours sincerely

Jamie Finn
